## **‘Visharad’ Skill Development Center**

### **Outcomes :**

The outcomes of skill development center at KBCNM university are numerous and impactful. Here are some potential outcomes that are proposed to be achieved from the establishment of ‘Visharad’ skill development center:

1. **Enhanced employability:** By providing students with industry-relevant skills and hands-on training, skill development centers can significantly improve their employability. Students who graduate with practical skills are better equipped to meet the demands of the job market and are more likely to secure rewarding careers.
2. **Increased entrepreneurship:** Skill development centers can foster a culture of innovation and entrepreneurship by providing students with the knowledge and tools they need to start their own businesses. This can lead to the creation of new jobs and economic growth.
3. **Improved industry engagement:** Skill development centers can facilitate meaningful partnerships between academia and industry, resulting in a better alignment of education and training with industry needs. This can lead to more relevant research, innovative solutions to industry challenges, and greater collaboration between academia and industry.
4. **Enhanced learning outcomes:** Skill development centers can offer students a more engaging and immersive learning experience, resulting in improved learning outcomes. By providing students with access to the latest technologies and best practices, skill development centers can enhance the quality and relevance of education.
5. **Increased competitiveness:** Skill development centers can help universities maintain their competitive edge by offering programs and initiatives that are aligned with industry needs and trends. This can attract more students, faculty, and research funding to the university, leading to greater recognition and impact.
6. **Linking :** with the requirements of the Tribal and rural environment with the need of urbanization and world level opportunities to the stakeholders from University region.

Overall, skill development centers can be a valuable asset for universities, students, and industry alike, leading to improved outcomes and greater success for all parties involved.
