

## **One day workshop on “Wikipedia Vector Graphics Localization”**

The School of Computer Sciences, Kavayitri Bahinabai Chaudhari is organizing a **One-day Workshop on “Wikipedia Vector Graphics Localization” on 15<sup>th</sup> March 2019**. This workshop will help you to become part of SVG Translation Campaign 2019 in India organized by Wikipedia community group. SVG Translation Campaign 2019 in India is a 38-day long campaign to translate the SVG files into Indian languages for use of regional language Wikipedias. This campaign has a goal to promote the idea of vector graphics among the larger Indian community.

Often, we see English-labelled SVG files being used on Indian Wikipedias, this campaign helps us to have localised SVG files with labels in regional languages to be used on Wikipedias. This campaign is being supported by CIS-A2K. For details visit at [https://commons.wikimedia.org/wiki/Commons:SVG\\_Translation\\_Campaign\\_2019\\_in\\_India/Organisers](https://commons.wikimedia.org/wiki/Commons:SVG_Translation_Campaign_2019_in_India/Organisers).

This workshop will give details about how to perform translation to become part of SVG Translation Campaign 2019. The workshop is sponsored by CIS-A2K, RMVS Mumbai, and KBC NMU Jalgaon. Hence, there will be no registration fees charged for this workshop.

Anyone having good Marathi language skills and interest in translation can participate. We appeal Science Teachers/Marathi Teachers/Retired Teachers/Doctors/Journalist/Social Activist and students to participate by registering on link <https://goo.gl/forms/wvUxTTFONHZjoNRq1>.
